

# TOGOUCHI Single Malt

Togouchi is a premium and artisanal Japanese whisky brand produced by Chugoku Shuzo, based in Hatsukaichi, Hiroshima Prefecture. The distillery was founded in 1918 and has been producing sake and liquor for more than 100 years. Production of Togouchi whisky began in 1990. Togouchi whisky's unique aging process involves aging in an abandoned 361-meter-long railroad tunnel with a constant temperature of 15°C and 80% humidity. The whiskies are then blended and reduced with natural spring water from the neighboring Sandankyo Mountains. Although Japanese whisky-making methods are rooted in Scottish tradition, Japan has a great deal of blending freedom.

Created by master distiller Taihei Yamamoto. This single malt is a blend of bourbon and sherry cask maturation. Unlike Sakurao Single Malt, this one is matured in an abandoned railway tunnel in a low mountain range.
